

TSH Biopharm is caring for disabled friends and Mindanao's home. We are on the path of change.

TSH Biopharm has entered its 10th anniversary since its establishment. This year, it will convey the spirit of "We are on the path of change." The prelude to the journey started from the company's charity sale before the new year. Colleagues provided all materials for free, and all the proceeds from the charity sale were donated. To the Mindanao Homeland, who is dedicated to caring for the mind and friends with multiple physical and mental disabilities, today (2/3), on behalf of Jian Rong Huang, Director of the Business Division of TSH Biopharm, went to the donation ceremony, let TSH Biopharm contribute to the path of home change!

Caption: On the Chinese New Year occasion, family members of Mindanao Home also made Spring Festival couplets together and presented them to TSH Biopharm to thank the donations.

Let's start with Mindanao Homeland. The promoter of Mindanao Homeland is a priest from Switzerland, Pu Mindanao. He couldn't bear to see many fathers and mothers worrying about their children's future with disabilities. He decided to build a new one. A large-scale lifelong education service organization, Min Dao Jia Yuan, was finally allowed to file an independent case in 1999. It currently accommodates friends with severe, severe, moderate, and mild mental and multiple physical and mental disabilities from Taiwan. The hospital includes lifelong education services such as health care, considerable leisure, homework activities, and community life.

However, with the advent of Taiwan's aging society, many caregivers and care recipients in social welfare institutions also face the natural phenomenon of aging. Still, the changes brought about include increased disease due to aging, difficulties in care, and insufficient human support. Wait, I am afraid that the homeland will be forced to embark on the path of change, and the energy required for this change requires our efforts.

Caption: General manager of TSH Biopharm Yang Si Yuan opened the charity sale at the end of the year, inviting all colleagues to walk on the road of change, and the scene was crowded.

This year, TSH Biopharm chose to donate to Mindanao Homestead, undoubtedly to remind us of our corporate social responsibility in the medical profession. We pay attention to the elderly and patients with chronic diseases and strive to improve patients' quality of life with unmet medical needs. We pay attention to disadvantaged groups' care and care. Based in Taiwan, TSH Biopharm will invite everyone to make small changes for you and me in Taiwan.

TSH Biopharm Co., Ltd. takes the "patient-centered" as the starting point through the "two-engine three-track advancement," with traditional pharmaceuticals and innovative medical treatment. Our central axis creates a medical product portfolio that focuses on providing patients with unmet needs. It is committed to new ingredients, unique formulations, chronic disease treatment, multiple genetic testing technologies, cancer detection, innovative therapies, cooperative development, and becoming the best partner of international innovative biopharmaceutical companies in developing and marketing new drugs in Asia. TSH Biopharm Co., Ltd. will contribute toward superior health with humans' life.
